DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3,5-13,15-25 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over EPA'681 substantially for the reasons of record.

The amendments and remarks filed by applicants on 8-18-09 have been fully considered. Applicants have argued that the prior art does not teach the claimed invention and have amended claims by eliminating "iron oxide flakes". Applicants arguments have not been persuasive. The examiner points out that the current claims clearly overlap with what is claimed in the prior art reference. Claims require one or more layers of hard material on the substrate. The applied reference teaches at least two layers of hard material. One of them is iron oxide and the other is aluminum oxide (see page 4, lines 30-35). It is not clear why oxides of prior art are different from the same oxides in the claimed invention. The claimed substrates are also disclosed, for example mica.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
